CORPORATE

On 9 July 2021, the Company requested a voluntary suspension of its securities pending the finalisation of the details of a material acquisition. The Company deemed a voluntary suspension necessary to enable the Company to manage its continuous disclosure obligations and to avoid trading in its securities happening on a basis that is not reasonably informed.

The Company expects the suspension to last until the earlier of the commencement of normal trading on 30 September 2021, or by the release of an announcement by the Company.

DEVELOPMENTS DURING THE QUARTER

CRATER MOUNTAIN GOLD PROJECT

PAPUA NEW GUINEA

The Company continues to take appropriate precautions and actions to protect our staff and business operations, including precautions as advised and suggested by the World Health Organization, the Australian Government and the Government of Papua New Guinea (PNG).

First and foremost, our priority is the health, safety and wellbeing of our staff and the people of the communities in which we operate and as such, the Company is actively monitoring the COVID-19 situation and its potential impacts on these groups.

Due to continual spread of the COVID-19 virus, the PNG Government put in place travel restrictions, both domestic and international, as well as a quarantine program for international arrivals, which remains in place to this day. This combined with reduction in flight connections into PNG has hampered the Company's ability to move expatriate personnel in and out of PNG.

Whilst recent changes have re-opened domestic travel in PNG, the impact of the COVID-19 pandemic is still being felt in the area where the Company operates, with many of the logistics providers remaining closed, or offering limited services.

Due to the ongoing nature of these factors and their impact on our ability to access our operations reliably on an ongoing basis, all production and exploration activities continue to remain suspended at present.

In the meantime, the Company remains focused on the renewal process of ML510 and is working closely with the Mineral Resources Authority (MRA) to secure a new ten (10) year mining license, in addition to working in parallel for the renewal and grant of exploration licenses at the Company's Crater Mountain Gold Project.
