Dear Sir

## **GOLD AURA KAZAKHSTAN WINS EXPLORATION RIGHTS TENDER IN THE SOUTHERN BANANKOL AREA, SOUTH-EAST KAZAKHSTAN**

Gold Aura Limited ("GOA") announces that Gold Aura Kazakhstan ("GAK") has won the Tender for the gold exploration rights to the Southern Bayankol area in SE Kazakhstan.

The Southern Bayankol area lies along the highly prospective Central Asian Black Shale Gold belt that hosts numerous world class size economic gold deposits. In particular, the area is located only 175 km along strike to the east from the world class Kumtor Gold Mine in Kyrgyzstan which contains a resource of some 17 million ounces gold. GOA believes that the prospective Middle Tien Shan lithologies, which host Kumtor, extend into the Southern Bayankol area. The area is also known to host narrow, high grade, gold quartz veins.

GAK will acquire the tenement rights to the Southern Bayankol area upon the successful completion and signing of a Contract Agreement with the Kazakhstan Government. GOA has an agreement with GAK that it will obtain an 80% interest in GAK following the granting of the exploration tenement.

If GAK is successful in negotiating a Contract Agreement with the Kazakhstan Government, it intends to undertake an aggressive exploration program in this high potential area.

The Project is complementary to GOA's adjoining Saiyikale JV Gold Project in NW China which covers the expected further extension of the prospective Middle Tien Shan lithologies from Kazakhstan into China. Evidence for gold mineralisation has already been located at Saiyikale during the two field programs undertaken in 2005.

*The information contained in this report that relates to Exploration Results, Mineral Resources and Ore Reserves is based on information compiled by Mr Ken Chapple, Executive Technical Director of Gold Aura Limited. Mr Chapple is a Member of the Australasian Institute of Mining and Metallurgy and has the relevant experience in relation to the mineralisation being reported upon to qualify as a Competent Person as defined in the 2004 Edition of the Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves. Mr Chapple consents to the inclusion in the report of the matters based on his information in the form and context in which it appears.*

Yours faithfully  
**GOLD AURA LIMITED**

Ken Chapple  
Exploration Manager
